BARNSELY LOCAL PLAN EXAMINATION 2017

STATEMENT REGARDING MAIN MATTER 10:

*“ARE THE PROPOSED EMPLOYMENT ALLOCATIONS SOUNDLY BASED AND
DELIVERABLE WITHIN THE PLAN PERIOD?”*

(POLICIES E1, E2 & EMPLOYMENT SITE POLICIES)

A BRIEF INTRODUCTION

Yorkshire Land Limited has been successfully developing in and around Penistone and the Western Villages for almost 30 years, during which time it has brought tens of millions of pounds of investment and betterment into the local economy.

The Directors, Mr & Mrs Green, were born, bred and educated in Barnsley in the early 1960's and have gained a vast and valuable experience of the Borough's strengths and weaknesses and are highly knowledgeable of the area's capacity to accommodate housing and employment allocations.

Whilst Yorkshire Land Limited is represented by Peter Brett Associates & PB Planning at Stage 3 of the Barnsley Local Plan Examination in Public and comprehensive Hearing Statements responding to the Main Issues and Questions for Stage 3 have been submitted by these representatives, we provide our own focussed response herein to Main Matter 10 of the Inspector's MIQ's, highlighting serious failings with regard to the Employment Site Selection Process insofar as it affects Penistone and the Western Part of the Borough, which serves to substantiate our professional opinion that the Local Plan cannot be found sound unless Main Modifications are made by the appointed Inspector,

Mrs Sarah Housden BA (Hons) MRTPI.

ISSUE - WHETHER OR NOT THE ALLOCATIONS FOR EMPLOYMENT ARE BASED ON A ROBUST ASSESSMENT AGAINST RELEVANT CRITERIA

10.1 IS THE SITE SELECTION PROCESS FOR THE EMPLOYMENT ALLOCATIONS SOUNDLY BASED, INCLUDING SUSTAINABILITY APPRAISAL AND THE TESTING OF REASONABLE ALTERNATIVES?

Penistone East and West Wards account for approximately 10% of the Borough's population. The settlement services the rural hinterland and provides the main focus of employment opportunity within the Western Rural area of the Borough. Importantly, Penistone and the Western Rural Area of the Borough geographically form approximately half of the land mass within the Borough.

In consideration of the above, the only proposed employment site for Penistone (Reference P2) is insufficient to meet employment needs of the area in the Local Plan Period to 2033 and therefore further land needs to be identified.

Site P2 has several constraints which will in our opinion affect the deliverability of the whole site area and hence the ability to meet employment needs in full. These constraints are detailed within the Main Matter 3 Hearing Statement submitted by PB Planning but briefly include, topography, the presence of large high voltage electricity lines/pylons traversing the site and a Council identified requirement for a landscape buffer.

We therefore do not consider that the Site Selection process has tested reasonable alternatives, for instance, our proposals for the Blackmoor Business Park adjoining Oxspring were rejected within three and a half working days by the Council on the basis that the site is located in a Western Village where the Council do not propose development on the premise that development is not sustainable. Correspondence between Yorkshire Land and The council regarding this matter can be found online at:

www.BlackmoorBusinessPark.co.uk

The Inspector has now identified the need for the Council to identify housing site allocations in the Villages. As a consequence it seems logical and reasonable to consider the delivery of appropriate employment allocations in such locations where they are sustainable.

Whilst we acknowledge it is not part of the Inspector's role to examine the soundness of rejected or alternative sites, we consider it prudent to identify our proposed solution to the issues raised in this statement with regard to meeting the employment needs of Penistone and the Western part of the Borough. Especially considering we are not aware of any other competing sites for employment being proposed to meet the needs of Penistone and the Western villages.

10.2 IS THE SITE SELECTION METHODOLOGY BASED ON AN APPROPRIATE SET OF CRITERIA?

The Council have not properly considered sites outside of the Principal Town of Penistone on the premise that the Western Rural villages are not sustainable. However, sites in such locations may provide a reasonable alternative and additional capacity to meet employment needs, particularly where proposals benefit from sustainable transport connections to Penistone and other surrounding villages.

For instance, the proposed Blackmoor Business Park site is a previously developed site in the Green Belt, approximately 10 Hectares (25 Acres) in size and located just 2.5 miles from the Town Centre of Penistone, the proposed site adjoins the villages of Oxspring and Thurgoland. Oxspring is the only Western Village adjoining the Penistone Principal Town.

We are not aware of any other potential employment sites having been proposed to meet the Needs of Penistone and the Western Villages during the Local Plan Period.

10.3 ARE THE REASONS FOR SELECTING THE PREFERRED SITES AND REJECTING OTHERS CLEAR AND JUSTIFIED?

We do not believe that the reasons for selecting the preferred sites and rejecting others are clear and justified.

Not only do we believe additional employment land should be identified to meet the needs of Penistone, but as set out above, we also consider there to be deliverability issues associated with the only proposed employment allocation to meet the needs of Penistone and the Western Part of the Borough, site reference P2, which has several constraints, detailed in the Main Matter 3 Hearing Statement submitted by PB Planning.

We have also submitted compelling evidence to the Council which evidences several factors affecting the deliverability of site reference P2. These include the presence of two large electric pylons carrying high voltage cables which hang low over the site. The supporting text within the Publication Version Local Plan also identifies constraints associated with mature trees on the site's north eastern boundary and the need to provide of a buffer strip.

Furthermore, as set out within the Main Matter 3 Hearing Statement submitted by PB Planning, we are also aware of one other key restriction associated with the development of site P2, related to the accessibility for high sided delivery vehicles.

The Council have failed to address this evidence or to consider the allocation of a further less constrained site, to ensure that sufficient land is allocated during the plan period to help meet the employment needs of the area.

We have proposed a potential employment site in the form of the Blackmoor Business Park in Oxspring, which is a brownfield site within the Green Belt, unlike site reference P2 which is a Greenfield and Green Belt site. However, the Council has simply discounted this proposal on the basis that it is located on the edge of a Western Village where new development is not currently proposed.

The Council's position in this regard conflicts with its decision to allocate site P2 for employment use to meet the needs of Penistone and the Western Part of the Borough, as that site is actually located within the village boundary of Oxspring.

There are therefore serious implications associated with the deliverability of proposed employment allocation P2, leading to serious implications associated with the ability of the PDLP to meet the employment needs of Penistone and the wider rural hinterland which it serves.

**ISSUE - WHETHER OR NOT THE ALLOCATIONS FOR EMPLOYMENT ARE
 SOUNDLY BASED AND DELIVERABLE WITHIN THE PLAN PERIOD**

*10.4 THE FOLLOWING THREE QUESTIONS APPLY TO EACH OF THE SITES
 PROPOSED FOR EMPLOYMENT AS SET OUT BELOW:*

*A. IS THE TYPE AND AMOUNT OF DEVELOPMENT PROPOSED FOR EACH SITE
 JUSTIFIED HAVING REGARD TO ANY CONSTRAINTS AND THE PROVISION OF
 NECESSARY INFRASTRUCTURE?*

We do not believe that the Council have properly considered the identified constraints, outlined above, which will limit the type and amount of any development at Site P2.

The Council identify in paragraph 5.56 of the Local Plan that Penistone is the main centre for the surrounding villages and we want to consolidate this role through the plan period. Furthermore, the Council's adopted Core Strategy at section 7 (Spatial Portrait) sets out in paragraph 7.79 the need to provide between 4.5 and 6.5 hectares of Employment Land in Penistone over the Core Strategy Plan Period (2008 to 2026). The PDLP now extends to 2033 and therefore at least a proportionate amount of additional employment land will be required to ensure that needs will be met over the extended plan period.

Notwithstanding the above, Policy E2 of the Local Plan only seeks to distribute 1% of the Borough's future employment land opportunity to Penistone (3.3ha of a total 309.4ha). This in our opinion is a bizarre situation, particularly when the evidence provided by the Barnsley Development Agency (enclosed at Appendix A) is taken into consideration. In addition to this evidence, the Local Plan is proposing housing growth to the Principal Town of Penistone, which will ultimately result in a population increase and a greater requirement for local employment opportunities.

It is also important to note that since the adoption of the Barnsley UDP in December 2000, Penistone has lost a considerable amount of employment land, which is attributable to three factors. Firstly, Accessibility, as several low bridges restrict access and egress to/from Penistone and those large vehicles which can access the town are required to navigate through the town centre via high street/market place (square about) and Green Road, causing much disruption. Secondly, the introduction of policy PPG 3 which encouraged new housing development on previously developed sites and thirdly, the Councils adoption of Planning Advice Note (PAN) 30.

This Local Plan therefore provides the opportunity to provide sufficient additional or alternative employment land in a suitable location, not restricted by low bridges.

There appears to be a feeling by some residents within Penistone that the Borough Council are proposing more homes to Penistone whilst not addressing the needs of Jobs and Infrastructure to meet the increasing population. Attached at Appendix B is an article which featured in the Penistone Edition of the Barnsley Chronicle on Friday, 22 September 2017 following a Town Council meeting on Monday, 18 September 2017. Within this article a Penistone resident and Member of the Town Council, Mr G Saunders, is quoted as having stated at a recent Town Council meeting that: *"One of the things we raised and really banged the drum about [at the Local Plan examination] is that they seem to be just putting houses up in Penistone and making it a dormitory town. It is not helping employment, people are just commuting out. It doesn't help the local economy. We banged the drum on that and hopefully it will have been listened to."*

We believe our Blackmoor Business Park proposals will address this issue and meet employment needs of Penistone and the Western Villages over the plan period. We have also proposed further Tourism, Employment and Infrastructure schemes as part of our comprehensive development proposals, including the Penistone Transport Interchange and Oxspring Tourism Hub, further details of which are provided within the Main Matter 14 statement submitted by Mr Paul Butler of PB Planning.

It is clear that the current amount of employment land proposed in the Local Plan to meet the needs of Penistone and the Western Villages is insufficient. However, we are not aware of any suitable land for employment allocation within the boundaries of the Penistone Principal Town.

The Council is aware of the opportunity to allocate the proposed Blackmoor Business Park site adjoining Oxspring, which has no constraints and is well served by the road network from the B6462.

As set out above, the Blackmoor Business Park is located just 2.5 Miles from the Town Centre of Penistone. The site adjoins the Trans Pennine Trail which traverses Penistone and its Train Station, which is situated just 10 minutes away by bicycle. An Existing bus stop is located at the entrance to the site.

The Blackmoor Business Park site is currently owned by the MoD and is listed for delivery during 2017 in the official MoD disposals list, enclosed at Appendix C.

Allocation of the proposed Blackmoor Business Park site will ensure that sufficient employment land will be available to meet the needs of both Penistone and the Western villages during the plan period to 2033. The population of the Western part of the Borough will continue to increase during the plan period and we feel it essential that entrepreneurs and business owners have the opportunity to acquire suitable and modern premises from which they can operate and recruit staff from the local communities.

B. ARE ANY FURTHER SAFEGUARDS OR MITIGATION MEASURES NECESSARY TO ACHIEVE AN ACCEPTABLE FORM OF DEVELOPMENT AND ARE ANY MAIN MODIFICATIONS PROPOSED OR REQUIRED FOR SOUNDNESS?

In light of the identified constraints affecting Local Plan Site Reference P2, We propose the allocation of further employment land in the Penistone and Western Part of the Borough as a necessary measure to ensure that the full employment needs can be met during the Local Plan Period.

Apart from the Blackmoor Business Park proposals, we are not aware of any other suitable employment land proposals or that any have been submitted to the Council via the call for sites process.

We believe that the failure to allocate sufficient land to meet employment needs in Penistone during the Local Plan Period could potentially render it unsound.

The Blackmoor Business Park Proposals can be considered an acceptable form of development on the basis that the site consists of redundant previously developed land and located in a sustainable location just 2.5 miles from Penistone Town Centre, served by the B6462 Sheffield Road and adjoining the Trans Pennine Trail, from where Penistone Railway Station can be reached in just 10 minutes by bicycle. The site is also served existing bus services, with a bus stop located at the entrance to the site. The site is also in close proximity and on the bus route to two other large western villages, these being Thurgoland and Silkstone Common.

C. IS THE DEVELOPMENT PROPOSED FOR EACH SITE DELIVERABLE IN THE TIMESCALES ENVISAGED IN THE DELIVERY TRAJECTORIES?

We believe that Site reference P2 will not deliver the quantum of employment development required to meet the needs of Penistone and the Western Part of the Borough until the end of the Local Plan Period. Furthermore, considering the constraints we have identified, we do not believe the site is financially viable.

In contrast, it can be noted from the enclosure at Appendix C of this statement that the MoD will be disposing of the proposed Blackmoor Business Park site shortly. We have already instructed our legal advisers to enter into negotiations to acquire the site.

From our extensive knowledge of this area, over many years, we believe there is a strong demand for accessible modern and quality business premises in this part of the Barnsley Borough. Our thinking aligns with the conclusions of the Barnsley Development Agency, which are set out in their Data attached at Appendix A of this statement. On this basis we believe it makes sound business sense to provide and deliver these much needed facilities.

In the event that we were we unsuccessful in acquiring the site, the new site owner, having paid out to acquire the site, is almost certain to develop it as soon as possible to achieve return on its capital.

The Blackmoor Business Park proposals are a viable proposition which will be delivered in the Local Plan Period, unless prevented by the planning system.

Matthew

Many thanks for your email

In relation to your questions hopefully the following should help

Census Labour Supply Data

According to the 2011 Census the Penistone West ward (incorporates main urban centre of Pensitone, Thurlstone and Hoylandswiane) recorded;

- 11,322 residents of which 65.2% are classed as being of working age (16- Pensionable Age)
- Penistone West's working age population rate (65.2%) is greater than the rates recorded at borough (64.1%), regional (64.6%) and national (62.5%) rates – helping to indicate a potential greater demand for potential employment sites to service the indigenous population base.
- 73% of Penistone West's resident based population (16-74) are classed as being economically active, which is greater than the rates recorded at borough (66.5%), regional (68.4%) and national (69.9%) rates
- Of those who were economically active in Pensitoen West;
 - 67.5% were in employment, which is greater than the rates recorded at borough (59.1%), regional (60.0%) and national (62.1%) rates
 - 10.8% were in self employment, which is greater than the rates recorded at borough (7.7%), regional (8.4%) and national (9.8%) rates
 - 3.0 % were unemployed, which is lower than the rates recorded at borough (5.1%), regional (4.8%) and national (4.4%) rates
- Over the last 10 years (since the last Census the following characteristic's have occurred within the Penistone West ward:
 - Employment levels have increased (65.0% in 2001 to 67.5% in 2011)

- Self employment levels has increased (9.9% in 2001 to 10.8% in 2011)
- Unemployment levels has increased (2.3% in 2001 to 3% in 2011)

Unfortunately, Census 2011 data has not released travel to work statistics for lower levels of geographies, therefore we are unable to provide a response to this question , however Census 2001 indicated that residents who lived in Pensistone West ward:

- 29.4% worked less than 2K form where they lived (lower than the rates recorded at borough (28.1%), regional (29.1%) and national (29.1%) rates
- 50.8% worked less than 10K form where they lived (lower than the rates recorded at borough (66.6%), regional (71.4%) and national (67.5%) rates

Labour Demand Data

According to ONS Business Register & Employment Survey (BRES) data there are;

- 3,073 total employee jobs are held by businesses within the Penistone West Ward, of which:
 - 68.6% are classified as being full time and 31.4% are part time classified
- In terms of the industrial breakdown of jobs in the Penistone West Ward;
 - 25.7% are Manufacturing based
 - 17% are Retail based
 - 8% are Transport and Storage based
- **Over the past year;**
 - the number of jobs in the Penistone West ward has increased by 0.3%, with Full time Employment (FTE's) jobs increasing by 1.3% (lower than the 2.8% increase recorded at Barnsley level)
 - Transport and Storage sector recording the largest increase in jobs that have been created (+142 increase of 135%)
- Despite the increase recorded over the last year, the number of employee jobs in Penistone West ward remains -6.1% lower than before the last recession (2008).

In addition to the above, Bank start data (new business bank accounts) continues to record the Penistone West and East wards as being one of the top 3 wards within Barnsley for the creation of new businesses.

Conclusion

- The above evidence from both a labour supply and also to that of a labour demand perspective help to indicate that the Penistone West Ward is seen as being one of the boroughs most economically active part of the borough, which has seen levels of employment and self employment continue to increase over the last 10 years and remain higher than borough wide, regional and national rates.
- Likewise Penistone West Ward residents have been more resilient and continue to record significantly lower levels of unemployment compared to other parts of the borough and indeed regional and national rates.
- Residents of the borough are more likely to out commute to work (outside Penistone), mostly associated to more constrained workplace pay that both Penistone and Barnsley as a borough commands.
- Job growth has occurred, during the last few challenging years from largely the growth of the indigenous business stock and also the expansion and relocation of companies to new employment sites.

- The ability to continue the growth recorded over the past year is crucial to helping to ensure that Penistone West ward contributes to the overall borough wide economic strategy targets (need for up to 32,000 jobs being to be created and the growth of the indigenous businesses base by 1,500 new businesses)
- Loss of key employment land to other uses (most notably housing) could potentially hamper the future and continued growth of both the overall business base and future jobs within the Penistone part of the borough. Thus meaning that the borough is unable to meet its core economic strategy targets; a reduction in potential business rates for BMBC and the potential out commuting of businesses and loss of additional private sector jobs if a range of future land and premises does not remain.
- For instance many “self-employed” are working from home in the Penistone and surrounding areas due to the lack of facilities in the proximity especially for new start and small businesses. Starter units and test bed area would do well.
- Likewise recent demand for appropriate sized units at Martree Business Park (3,000 – 4,000 sqft) has seen all units on this employment site currently being occupied and let to tenants, issue now will be for additional grow on space to remain these businesses and additional employment space for similar businesses that could be attracted to Penistone.

Hope this helps ,however if you require any additional information please do not hesitate to let me know

Subject: Penistone

To Paul,

I've been informed you may be able to help me out with some background information on the current and future economic potential of Penistone.

I am currently dealing with a planning application for residential development on a site in Penistone which is designated for employment use. The applicants are arguing that the site is not required for employment purposes but in order to understand whether it is needed or not it would be useful to know how the labour market acts in Penistone. With this in mind, have you got any information which might answer the following:

- What is the percentage of residents who live and work in Penistone?
- Has the trend over the last 10 years been for residents to work outside of Penistone?
- Do you know if there is a great need for employment provision within Penistone>?

Any information you can provide on the above would be appreciated.

Matthew

APPENDIX B

ARTICLE FROM THE PENISTONE EDITION OF THE
BARNSELY CHRONICLE, 22 SEPTEMBER 2017

'Urban sprawl' fears escalate

By Paul Whitehouse

FEARS are mounting that Penistone area communities could end up merging into an urban sprawl because of the possible extent of new housing development in the years ahead.

Barnsley Council had decided to insulate villages across the borough from major new developments for at least two decades and to concentrate new housing on the 'principal towns', including Penistone, instead.

That idea was contained in a document called the Local Plan which has been on the drawing board for years.

But before it can be adopted it has to be approved by an independent inspector and she has raised the alarm about the overall number of new homes being planned by the council - which she has told them could be way below the numbers the town will really need if the council's plans for economic growth are to be achieved.

She has also questioned why the villages have been excluded from shouldering the burden of more new housing, leaving Barnsley Council to come up with some answers for a round of scrutiny sessions due to start next month.

There has been widespread concern about the density of new housing which has already been approved and which is proposed for the future in Penistone itself, a situation which led to the formation of the Community Action Penistone pressure group.

But Penistone Town Council has been told the impact of new housing on surrounding villages also needs to be considered.

Coun Ann Rusby said: "Does the inspector ever come out and have a look at the areas they are talking about?"

"The villages around Penistone have already had massive developments.

"Ingbirchworth must be more than twice the size it was. The pub has closed, the chapel has gone, they have absolutely nothing.

"Oxspring is the same, Springvale has had massive housing.

"Crow Edge has lots of new housing but these places don't have facilities.

"If they carry on there will not be any villages, Springvale has almost joined Oxspring, Oxspring has almost joined Thurgoland. There will be no definition between them."

Coun Graham Saunders said the inspector had made site visits and

added that the suggestion of wider building was aimed at the whole of the borough of Barnsley, not just Penistone.

He has given evidence to the inspector and told Penistone Town Council: "One of the things we raised and really banged the drum about is that they seem to be just putting houses up in Penistone and making it into a dormitory town.

"It is not helping employment, people are just commuting out. It doesn't help the local economy.

"We banged the drum on that and hopefully it will have been listened to."

Penistone Town Council has been drawing up its own Neighbourhood Plan, which should run alongside Barnsley Council's Local Plan when that is eventually adopted.

Three outside bodies, Natural England, the Environment Agency and Historic England have given positive feedback.

The next step will be to prepare a questionnaire as part of public consultation over the document.

A vote will have to be carried out in the area to determine that more than half of residents want the plan to be adopted before it can be put in place.
